REPORT OF FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing co-operation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your co-operation in this way is earnestly solicited.

1948 Fire Record: Number of fires, 0; acreage burned, 0; number of fire permits issued, 0.

Respectfully submitted,

CLYDE F. MORRILL,

Forest Fire Warden

A study of the Co-operative School District plan might reveal some advantages in such a re-organization for Albany.

Through the effort of Miss Julia T. Cox, R.N., the fluorine dental treatment was given to the Albany pupils. This has proved to be a definite help in preventing tooth decay. This area is one of six in New Hampshire to benefit from the Federal fluorine work.
